

Smartphone support kit

Idoneo al montaggio dei principali Smartphone attualmente sul mercato, prevede un supporto a manubrio/specchietto discreto e facile da montare, una cover telefono in morbida gomma assorbi-impatto, con integrato l'attacco specifico per il supporto, ed una cover impermeabile trasparente. Tramite i diversi spessori di fissaggio dell'attacco, si può facilmente posizionare il supporto su diversi tipi di specchietti e manubri. Con una semplice rotazione di 90° la cover si accoppia in maniera stabile e sicura al supporto, garantendo al telefono un posizionamento comodo e sicuro, ed un facile accesso alle informazioni sullo schermo. La cover antiurto riporta, laserato in rilievo, il logo Piaggio Group

Suitable for the main Smartphones currently on the market, it includes a discreet handlebars / mirror holder that is easy to mount, a soft rubber impact-absorbing smartphone cover, with an integrated connector for the support, and a transparent waterproof cover. Thanks to different attachment fixing interfaces, the support can easily be positioned on different types of mirrors and handlebars. With a simple 90 ° rotation, the cover is fixed in a stable and secure way onto the support, ensuring a comfortable and safe positioning of the phone, and easy access to information on the screen. The shock-resistant cover shows the Piaggio Group logo, laser-engraved in relief.

Easy fit and quick release system thanks to a solid pivot locking the phone cover after 90° rotation
